

AC-HAL-II

Hand-push Cold Paint Airless Road Marking Machine

Model:	AC-HAL-II
Engine:	ROBIN 9.0HP gasoline engine
Air Compressor:	0.16m ³ /min (Spraying)
Marking Method:	high pressure airless spraying type
Delivery Rate:	9L/min (single)
Max. Rated Working Pressure:	20Mpa
Pump and Control Method:	auto-shuttle plunger pump
Applied paint:	Suitable for solvent-based paint, water-based paint and two-component cold plastic 1:1;
Marking Line Width:	50-450mm (adjustable);
Spray Gun :	Double fixed manual spray guns
Glass beads system: (optional)	6L gravity dispensing type, 10L pressure spraying type
Hardner Container:	5L (pressurized for 98:2 2-component cold plastic)
Dimension(L*W*H)	1750×1000×1250mm
